

Follow The Law

It's the right thing to do.

Remember:

Planting patented seed saved from a prior harvest without the patent owner's permission is illegal.

- // Numerous patented traits are present in soybean, cotton, canola, and alfalfa products. Germplasm may or may not be protected by patents and/or other intellectual property rights. Consult your seed supplier to determine if a specific variety is covered by other forms of intellectual property rights
- // People who actively encourage or induce farmers to save and plant saved seed that contain one or more patented traits may be liable for infringement
- // Patents help encourage innovation to meet the evolving needs of farmers
- // Growers must follow all guidelines in any limited use license (e.g. Technology Stewardship Agreement)
- // Anyone with concerns or questions about seed piracy or intellectual property protection can anonymously call **1-800-768-6387**

Any seed, regardless of brand, containing these traits are patent protected and can only be obtained and used through a limited use license:

Soybeans: Roundup Ready 2 Yield[®] Soybeans, Roundup Ready 2 Xtend[®] Soybeans, XtendFlex[®] Soybeans, and Vistive[®] Gold Soybeans with Roundup Ready 2 Yield[®] Technology

Cotton: Bollgard II[®] Cotton, Roundup Ready[®] Flex Cotton, Bollgard II[®] with Roundup Ready Flex[®] Cotton, XtendFlex[®] Cotton, Bollgard II[®] XtendFlex[®] Cotton, and Bollgard[®] 3 XtendFlex[®] Cotton

Canola: Roundup Ready[®] Canola, TruFlex[™] Canola with Roundup Ready[®] Technology, and TruFlex Canola[™] with Roundup Ready[®] and LibertyLink[®] Technologies

Alfalfa: Roundup Ready[®] Alfalfa and HarvXtra[®] Alfalfa with Roundup Ready[®] Technology

Cleaning seed containing the traits found in these products may result in the Seed Cleaner being found liable for inducing patent infringement, resulting in the entry of a monetary judgment and/or injunction. A farmer planting saved seed containing these traits will be liable for infringement of one or more patents. The U.S. Patents for Monsanto Technologies can be found at **www.monsantotechnology.com**.

You're buying more than just seed. You're getting value today and innovation for tomorrow.

COMMITMENT. INNOVATION. PERFORMANCE.

For more information about seed technology, visit ASTA's Beyond the Seed Program at www.beyondtheseed.org. ASTA, as a trade industry association, does not endorse products, services or technology of individual companies.

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Technology Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.

Monsanto Company is a member of the Bayer Group.

Monsanto Company is a member of Excellence Through Stewardship[®] (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship[®] is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with cotton with XtendFlex[®] Technology. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend[®] soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend[®] soybeans or cotton with XtendFlex[®] Technology.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

Roundup Ready[®] Technology contains genes that confer tolerance to glyphosate. **Roundup Ready[®] 2 Technology** contains genes that confer tolerance to glyphosate. **Cotton with XtendFlex[®] Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Roundup Ready 2 Xtend[®] soybeans contain genes that confer tolerance to glyphosate and dicamba. LibertyLink[®] Technology** contains genes that confer tolerance to glufosinate. **Glyphosate** will kill crops that are not tolerant to glyphosate. **Dicamba** will kill crops that are not tolerant to dicamba. **Glufosinate** will kill crops that are not tolerant to glufosinate. Contact your seed brand dealer or refer to the Monsanto Technology Use Guide for recommended weed control programs.

Insect control technology provided by **Vip3A** is utilized under license from Syngenta Crop Protection AG. LibertyLink[®] and the Water Droplet Design[®] is a trademark of BASF Corporation. Bollgard II[®], Bollgard[®], Respect the Refuge and Cotton Design[®], Roundup Ready 2 Technology and Design[™], Roundup Ready 2 Xtend[®], Roundup Ready 2 Yield[®], Roundup Ready[®], TruFlex[™], Vistive[®], XtendFlex[®], Bayer and Bayer Cross are trademarks of Bayer Group. ©2020 Bayer Group.
